## EXPERIENCE HISTORY

### FREELANCER

AMIGOCAN DOGSCHOOL - Monday Routes System

*Technology: C# - .Net*

A simple system that reads and excel file, takes the dog's names from a column, and displays some options of each value. User can choose whether the dog assists or not, and then, those values are posted on a new excel file, ready to be print.

AMIGOCAN DOGSCHOOL - Suitter - app

*Selection app technologies: HTML - CSS - JS React, Redux*

*Billing App technology: HTML - CSS - JS React, Redux, ElectronJS*

It is a system that automates billing process. Each customer has its own plan with its own prices. In selection app, user chooses who customer sent its pet each day. Then, in Billing App can search using filters like customer's name or pet's name and generate a bill based on Selection App records.

### ACADEMLO PRACTICES
